NORTH-WEST RESISTANCE

ORACLE DECK

Please use this deck with respect, and remember that these are real people, real spirits and Indigenous Heroes who are there to help you whenever called upon.

These spirits like offerings, no matter how small. Give them offerings based on how much you value their time. If you're unable to give them offerings, volunteer or donate to those in need.

Through practice with this deck, develop your psychic-mediumship abilities. Learn how to hear spirit, and don't expect something right away. Being a psychic-medium takes a lot of patience through daily practice.

You may notice the spirit's pronouns are different than what you're used to. Please be polite, and if needed, clarify their preferred pronouns. Remember, spirits can also go through a journey with gender-identity.

If you found this deck helpful, please consider **donating to North Point Douglas Women's Centre** in Winnipeg.

If you're interested in spiritual coaching, I offer my services for **free**. Message me if you're interested!

HOODOO / VOODOO

Before you judge, it's important to understand that voodoo originates from Africa and is a longstanding religion from the time of their predecessors. Colonizers labeled hoodoo and voodoo as evil, but this perception is incorrect. Both practices can bring about positive change in your life or someone else's. I offer teachings on hoodoo and voodoo to help you learn more about these traditions.

CHANNELING

Let me show you different perspectives by channeling me. I will always channel a woman's or queer person's perspective through you, so you can see through their lens and learn something valuable from it. I will also channel from someone's perspective to you from around the world like India or Japan.

WILDLIFE WISDOM

Every creature in the wild has a unique perspective, and often we can learn valuable lessons by honoring them. Wildlife teaches us to give back to the land and to show respect for eachother, the land and the animals that inhabit it. Each animal, insect, and marine life holds a lesson to share. If you have a specific animal in mind, ask about its teaching, and I will share it with you.

SEEING SPIRITS

The truth is, your house is haunted. However, you need not fret—it's most likely the presence of family members who have passed on. They often linger in familiar spaces, watching over their loved ones. As we work together, you'll gradually open your senses and become more aware of these spirits. With time and dedication, you may even find yourself to be able to see them, gaining insight into their stories and messages.

HEARING SPIRITS

To hear the paranormal is to believe, and I want to help you develop your abilities so you can start hearing the voices of spirits. This skill is essential for becoming a psychic medium. To achieve accuracy, you must set aside your fears, emotions, and thoughts, as they can interfere with the messages from spirits. Meditate to enhance your accuracy, or practice with a friend using this card.
